

# Listening Tips

## Engage with activities:

- Talk to friends in English, maybe about topics you've read about in your other study sessions
- Join a local conversation group or a [Meet-up group](#)
- Attend lectures, church or gigs where people will be speaking in English (maybe make notes about it afterwards in your diary)
- Do practice listening tests online, for example <http://learnenglishteens.britishcouncil.org/skills/listening-skills-practice>
- Listen or watch the same podcast or TV series as the repetition of ideas and characters helps with language learning
- Make lists of interesting words, words you don't understand and key words that summarise the meaning of what you are listening to or watching
- Turn on English captions when watching videos

## Engage with materials:

- Listen to topics you are interested in
- Try to predict what you will hear, what topics? What will happen?
- Comment on, discuss and write down questions you have
- Listen for gist or main idea
- Pay attention to the tone used as this can give clues to the content
- Listen to variety of materials: podcasts, TV Drama, News reports, monologues and dialogues
- Listen to the same video or podcast several times
- Take notes on what you hear and summarise the main ideas
