

REFERENCING A PINTEREST BOARD IN APA 7TH EDITION

General information:

- Pinterest is a website which allows users to locate and save images (pins) to online boards.
- The example below is fictional, but used to demonstrate what a reference Pinterest board looks like.
- You should not be required to reference individual “pins” on Pinterest. These pins, all have an original source of information, i.e., website that they originally came from, so you should reference that website in that instance. However, you may wish to refer to a whole board (i.e., your own board) in the written part of your assignment.
- Creation dates of boards cannot be found on Pinterest, so instead, we use (n.d.) after the authors’ name and use the retrieval date (see examples below)
